<p>Risk profile</p>	<p>Investors are advised to read section 7 "Notice Regarding Special Risks" of the General Part of the Prospectus and should duly note the contents thereof prior to making any investment in the Merging Sub-Fund. Please refer to the details below for information on risks that investments in this Sub-Fund may entail:</p> <p>Investments may be made in countries where the local stock exchanges may not yet qualify as recognized stock exchanges within the meaning of the investment restrictions set out in the prospectus;</p> <p>Accordingly, pursuant to the investment and borrowing restrictions defined in section 9 of the General Part, investments in securities listed on stock exchanges which do not qualify as recognized exchanges or markets and other non-listed investments may not exceed 10% of the net assets of each of these Sub-Funds;</p> <p>Investments in equities are subject to price fluctuations at all times. Investments in foreign currencies are also subject to currency fluctuations;</p> <p>This Merging Sub-Fund's investments may be subject to a higher degree of risk. The stock markets and the economies of emerging markets are generally volatile. This Merging Sub-Fund's investments in certain emerging markets may also be adversely affected by political developments and/or changes in local laws, taxes and exchange controls. Finally, in some countries, it is difficult to clearly identify what conditions of ownership apply to certain companies as a result of ongoing privatization processes.</p> <p>The procedures for settling securities transactions are associated with higher risks in the emerging markets than in developed markets. These higher risks are partly due to the fact that the Merging Sub-Fund must use brokers and counterparties which do not have a very high level of capitalization, and the safekeeping of assets may in some countries be undependable, so that upon subscription or redemption the Merging Sub-Fund's shares may be worthless, or more, than at the time they were created.</p> <p>The Merging Sub-Fund's investments may be subject to Sustainability Risks.</p> <p>The Investment Manager's integration of Sustainability Risks in the investment decision-making process is reflected in its ESG Investing and Advisory Policy. The Merging Sub-Fund has recourse to both internal and external ESG research and integrates financially material Sustainability Risks into its investment decision-making processes</p>	<p>Investors are advised to read section 7 "Notice Regarding Special Risks" of the General Part of the Prospectus and should duly note the contents thereof prior to making any investment in the Receiving Sub-Fund.</p> <p>Investments in bonds and equities are subject to price fluctuations at all times. Investments in foreign currencies are also subject to currency fluctuations.</p> <p>The Receiving Sub-Fund's sustainability investment process is expected to have a mitigating effect on Sustainability Risks and thereby is likely to reduce the overall risk profile of the Receiving Sub-Fund while seeking to improve its risk-adjusted returns.</p> <p>The Receiving Sub-Fund follows a sustainability strategy and applies minimum exclusion criteria and certain internal ESG rating assessments, supported by external ESG rating assessments, which may affect the Receiving Sub-Fund's investment performance positively or negatively since the execution of the ESG strategy may result in foregoing opportunities to buy certain securities, and/or selling securities due to their ESG-related characteristics.</p> <p>Main methodological limits: In assessing the eligibility of an issuer based on ESG research, there is a dependence upon information and data from third party ESG data providers and internal analyses which may be based on certain assumptions or hypothesis that render it incomplete or inaccurate. As a result, there is a risk of inaccurately assessing a security or issuer. There is also a risk that the Investment Manager may not apply the relevant criteria of the ESG research correctly or that the Receiving Sub-Fund could have indirect exposure to issuers who do not meet the relevant criteria.</p>

	<p>with the aim of improving the long-term risk-return characteristics of the Merging Sub-Fund's portfolio. The Sub-Fund's ESG approach consists of detailed, systematic qualitative and quantitative analysis of a potential investee's Sustainability Risks by the Merging Sub-Fund's sustainability and financial analysts using a proprietary ESG assessment framework. In addition, a number of minimum sustainability safeguards, voting and engagement strategies and economic activity based exclusions are employed. The Sub-Fund's ESG approach is expected to have a mitigating effect on Sustainability Risks, reducing the overall risk profile of the Merging Sub-Fund while seeking to improve its risk adjusted.</p> <p>More information about the sustainable investment policy, and the ESG approach of the Merging Sub-Fund may be obtained from vontobel.com/SFDR.</p> <p>The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.</p>
