

Energy Management Policy

O-Bank endeavors to provide both enterprise banking service and personal banking service; meanwhile, for fulfilling responsibilities of caring for the Earth and carrying out energy conservation and carbon reduction, we undertake to proceed with the following matters:

- Comply with laws and regulations in respect of energy management; increase the efficiency of energy consumption.
- Introduce energy conservation and carbon reduction into equipment; procure green renewable energy.
- Strengthen energy management communications; optimize energy management systems.
- Uphold innovative design with energy conservation; continue to improve energy performance.
